SUMMARY

Senior Software Engineer with 5 years of experience building scalable mobile and full-stack applications across consumer, fintech, and AR/MR platforms. Shipped apps with 1M+ downloads, contributed to a fintech POS platform serving 100,000+ businesses at 99.8% uptime, led development of a hyper-reality AR social network, and built community and e-commerce platforms end-to-end. Currently co-founding Yield Union in Manchester — an AI-powered creator financing platform live at yiyuu.com. Strong across React Native, TypeScript, Node.js, Java/SpringBoot, Python, and AWS. MSc in Managing Innovation and IT, University of Salford.

SKILLS

Mobile: React Native, TypeScript, JavaScript, iOS (App Store), Android (Google Play), Expo, Redux, Context API, Reanimated, FlashList, React Hook Form, Responsive UI, Accessibility (WCAG 2.1)

Backend: Node.js, Python, Java, SpringBoot, Django, REST APIs, GraphQL (Apollo), MongoDB, Firebase, AWS, Offline-first Architecture

AR & Emerging Tech: Google ARCore, Augmented Reality (AR), Mixed Reality (MR), Real-time GPS, Bluetooth Proximity Detection, Blockchain Integration

Testing & DevOps: TDD (80%+ coverage), Jest, React Testing Library, CI/CD Pipelines, Fastlane, GitHub Actions, Firebase Crashlytics, Git

AI & Tools: Claude Code, GitHub Copilot, Codex — daily AI-assisted development and agentic workflows; Xcode, Android Studio, Agile, Scrum, Jira

EXPERIENCE

Yield Union - Manchester, UK

Co-founder & Lead Engineer

Dec 2024 - Present

- Co-founded and built an AI-powered creator financing platform end-to-end — React Native mobile, React web, Node.js/Python backend, and AWS cloud infrastructure, live at yiyuu.com
- Architected full-stack TypeScript platform including an AI prediction engine forecasting creator revenue; sole engineer across all technical decisions, CI/CD pipelines, and product roadmap

Gysbox Teamworks - India

Senior Software Engineer

Jun 2022 - Aug 2024

Client: Zeller — Fintech POS Platform

- Owned mobile development for a fintech POS platform serving 100,000+ businesses — built scalable React Native iOS and Android applications with TypeScript, sustaining 99.8% uptime at 10,000+ concurrent users
- Drove TDD adoption with 80%+ unit and integration test coverage, reducing production defects by 25%; managed App Store and Play Store releases via Fastlane and GitHub Actions CI/CD
- Cut API response times by 25% through Node.js/MongoDB optimisation; implemented Firebase push notifications and crash analytics — user retention improved by 15%

Client: Tiluf — Hyper-Reality AR Social Network

- Led mobile development of Tiluf — built real-time AR overlays using Google ARCore displaying nearby users' names and interests in physical space
- Implemented Bluetooth and GPS proximity detection, cutting user connection time by 40% and boosting engagement by 25% after blockchain feature launch
- Led cross-functional engineering team, providing technical solutions to real-time AR challenges and driving innovation in the hyper-reality space

VRIZE - Bangalore, India

React Native Developer

Mar 2021 - Jun 2022

- Worked on Tropical Smoothie Cafe — a 1M+ download food ordering app used daily by customers across the US
- Built the full ordering flow, menu customisation, and Tropic Rewards loyalty system integrated with live backend services
- Added offline order support — order success rate improved by 10%
- Built loading and transition animations with Reanimated and Lottie, improving app responsiveness by 20%

AQubitas - Hyderabad, India

Full Stack Engineer

Jan 2020 - Mar 2021

- Led development of Coral — a scalable super community management platform consolidating Slack, WhatsApp, Telegram, Discord, and Slido into one dashboard
- Built and owned the full stack: React frontend, React Native mobile app, Java SpringBoot backend, AWS, and Firebase; took Coral from zero to live on the Google Play Store

Kanaxis Software Solutions Pvt Ltd - Hyderabad, India

Full Stack Engineer

Jul 2019 - Jan 2020

- Built SOMA — a full-stack e-commerce platform for a European luxury watch brand using React and Java SpringBoot
- Built EduYep — a secure, privacy-first social media platform for students with React Native mobile app, AWS hosting, and Firebase real-time sync

KEY PROJECTS

Yield Union — AI Creator Financing Platform (Co-founded, Live)

- Built end-to-end as sole founding engineer — AI prediction engine, React Native mobile, React web, Node.js/Python backend, AWS infrastructure. Live at yiyuu.com

***Stack:** React Native, React, Node.js, Python, TypeScript, AWS, AI/ML, GitHub Actions*

Zeller — Fintech POS Platform (100,000+ Businesses)

- Scalable React Native fintech platform — secure payment flows, TDD, CI/CD, Firebase integration, 99.8% uptime at 100,000+ businesses and 10,000+ concurrent users

***Stack:** React Native, TypeScript, Node.js, Redux, REST APIs, Firebase, Jest, Fastlane, GitHub Actions*

Tiluf — Hyper-Reality AR Social Network

- Real-time AR overlays in physical space using Google ARCore; Bluetooth/GPS proximity detection reduced connection time by 40%; blockchain social features boosted engagement by 25%

***Stack:** React Native, Google ARCore, Python, Firebase, Bluetooth, GPS, Blockchain*

Tropical Smoothie Cafe — 1M+ Downloads

- Ordering, loyalty rewards, offline support, and Reanimated/Lottie animations on one of the most-downloaded food apps in the US

***Stack:** React Native, TypeScript, Firebase, Redux, Reanimated, Lottie, REST APIs*

Coral — Super Community Management Platform

- Full-stack platform consolidating Slack, WhatsApp, Discord, Telegram, and Slido; React frontend, Java SpringBoot backend, AWS and Firebase; shipped to Google Play Store

***Stack:** React, React Native, Java, SpringBoot, AWS, Firebase*

EDUCATION

MSc - Managing Innovation and Information Technology

2024 - 2025

University of Salford, Manchester, UK

B.Tech - Computer Science and Engineering

2015 - 2019

Andhra Loyola Institute of Engineering and Technology, India
